

Your Teacher's Question: What do you think a medical illustrator draws?

SHOW ME YOUR ACES!!!

A

Answer the teacher's question in the form of a sentence:

I think a medical illustrator draws pictures of the organs inside the body.

E

Give an example:

An example of something a medical illustrator may draw is a heart.

E

Explain/elaborate/expand upon your example:

They may show all of the different parts of the heart like the valves and chambers. The picture may also show the path the blood takes after entering the heart.

S

Summarizing statement:

A medical illustrator can draw all the organs in the body and will probably start with the heart.

Completed Paragraph:

I think a medical illustrator draws pictures of the organs inside the body. An example of something a medical illustrator may draw is a heart. They may show all of the different parts of the heart like the valves and chambers. The picture may also show the path the blood takes after entering the heart. In brief, a medical illustrator can draw all the organs in the body and will probably start with the heart.
